LOOKOUT MOUNTAIN: A FUN DESTINATION TO WORK

CHATTANOOGA, Tenn. Rock City and Ruby Falls want to spread the word for potential employees to think about working in the business of fun! Over a million people visit the Lookout Mountain attractions every year, making it one of the South's favorite destinations.

Kim Jackson, special events director for Rock City said, "It is inspiring to work in such a beautiful place where the daily goal is to 'make memories worth repeating' for our guests. What a great way to spend a work day!"

When asked about her work experience at Rock City, Receptionist Wendy Bullard said, "Personally, I haven't ever worked anywhere else that even compares. Everyone is so nice. I have never felt so appreciated at any other place of employment. Everyone acts like family. I really enjoy getting to meet and talk with people from all over the world - to hear them talk of their visit and how beautiful it is here reminds me of my first visit to Rock City. It's great to share in their joy."

Jai Greer, human resources generalist at Ruby Falls said, "Working atop Lookout Mountain offers several intrinsic rewards that you cannot find at too many other places. Employees interact with guests from all over the world, enjoy the breathtaking view of Chattanooga and experience nature on a daily basis."

"Working at Ruby Falls is the most fun job that I have ever had! I really enjoy showing people the real beauty and nature of the cave," said Tour Guide Bill Weikert.

Rock City Gardens is one of the south's most popular natural attractions. Its enchanted, 4,100-foot walking trail is a true marvel of nature featuring massive ancient rock formations, a 140-foot waterfall that cascades down Lookout Mountain and a Swing-A-Long bridge that spans nearly 200 feet.

Ruby Falls is America's deepest commercial cave, 260 feet below ground, and holds the nation's largest, most-visited underground waterfall. Enjoy a guided tour through the fascinating cavern with its unique rock formations. The highlight of the tour is the sparkling 145-foot waterfall flowing out of the roof of the cavern.

The thrill of riding "America's Most Amazing Mile" has delighted guests for over a century. The Incline Railway up historic Lookout Mountain is the world's steepest passenger railway. Visit www.lookoutmountain.com for more details.

Employment applications will be available to submit online beginning March 15, 2008. Go to www.rubyfalls.com/employment for Ruby Falls applications and www.seerockcity.com/employment for Rock City applications.
